I. PROMENADE1-8 In promenade position, as above, walk 16 steps fwd in LOD,
beg. ML, WR.II. TURNING

Position: As partners face, M swings his RH (holding WLH yet) behind her back. WR hand holds M around ribcage (under his L arm). ML arm around ptnr, holding her LH, in back. Lean away slightly from partner.

Turning Step: M - delsbopolska, or left-foot polska (practice Pattern E. in earlier description)
L, touch, R.

Turning Step: W - Step R, L, R (cts 1,&,2), small leap onto L (ct 3). Almost as a two-step (R, close, R) followed by an extra step (leap L).

9-16 5 Turning Steps (3 counts per step) is 15 counts.

On count 16, stamp lightly with outside ft (no wt).

Let go with ML, WR hands and change back to original promenade position for repeat of dance.

NOTE: Doing the 3-count turn to 2/4 music results in a delightfully strange feeling, but it always comes out even in the end.
