

LATIN HUSTLE

LATIN HUSTLE is one of many kinds of swing currently being done - virtually any are fashionable! Most are derived from standard Eastern or Western swing, but done with different body styling.

LATIN HUSTLE is a form of Hustle partner swing as done in New York, called Latin because New York Latins got hold of it and added footwork like swing but different styling and dress. There are several versions, some fairly simple, and others very, very complex.
